

Robot Portfolio Lab Pro v2.1.0.4s Software Installation Process - June 2024

You can download the **Robot Portfolio Lab Pro v2.1.0.4s** installation file for use in NinjaTrader 8 from the members area.

- 1) **Please be sure to locate the License Spring email prior to beginning this process so your upgrade is seamless. It will contain everything you need to activate your software after installation!**
- 2) Save your Workspace and Shutdown NinjaTrader
- 3) Download **Robot Portfolio Lab Pro v2.1.0.4s** (*Ninjacators.RobotsPro.2.1.0.4s*)
- 4) Uninstall any previous version of Robot Lab. Do this from windows using the add/remove programs app.
- 5) Install **Robot Portfolio Lab Pro v2.1.0.4s**. Simply double-click on the downloaded installer.
- 6) Open NinjaTrader

All of the Strategies will be accessible within NinjaTrader in the **Ninjacators -> Robots** strategies folder.

IMPORTANT - PLEASE FOLLOW EACH STEP BELOW!

After you install **Robot Portfolio Lab Pro v2.1.0.4s**, you will need to activate your software. Ninjacators has moved to a user-based license system which will allow you to use your email address and a temporary password sent to your email. You will NOT need a license key.

PLEASE NOTE: After you install **Robot Portfolio Lab Pro v2.1.0.4s**, you want to reload the Default, Micro Default, or any custom strategy template (as necessary) in ALL of the strategies in your portfolio(s) before re-enabling the bots. Save your workspace.

Thank you for being a part of the Robot Portfolio Lab Pro community.
