

## The Fantastic 5 v2.1.0.4s Software Installation Process - June 2024

You can download The Fantastic 5 v2.1.0.4s installation file for use in NinjaTrader 8 from the members area.

Please use the following steps for successfully installing **Ninjacators.FantasticFivePortfolio.2.1.0.4s**

- 1) **Please be sure to locate the License Spring email prior to beginning this process so your upgrade is seamless. It will contain everything you need to activate your software after installation!**
- 2) Save your Workspace and Shutdown NinjaTrader
- 3) Download **The Fantastic 5 v2.1.0.4s** (*Ninjacators.FantasticFivePortfolio.2.1.0.4s.msi*)
- 4) Uninstall any previous version of the Fantastic 5. Do this from windows using the add/remove programs app.
- 5) Install **The Fantastic 5 v2.1.0.4s**. Simply double-click on the downloaded installer
- 6) Open NinjaTrader

All of the Strategies will be accessible within NinjaTrader in the **Ninjacators -> Robots** strategies folder.

### **IMPORTANT - PLEASE FOLLOW EACH STEP BELOW!**

After you install **The Fantastic 5 v2.1.0.4s** , you will need to activate your software. Ninjacators has moved to a user-based license system which will allow you to use your email address and a temporary password sent to your email. You will NOT need a license key.

If you have a workspace that already contains The Fantastic 5 Robots, then you will need to update each one of them by applying the new template that was installed. You simply right-click on each Robot in the strategy tab of the control center > Select edit > and choose template from the bottom right corner > Load and choose either the Default or Micro Default Template and save. Repeat that process until you are finished and be sure to save the Workspace.

Thank you for being a part of The Fantastic 5 community.
